## STOCKING THE POND

Taken from ODNR's "Ohio Pond Management Handbook"

A properly stocked and managed pond will provide years of quality fishing. Stocking the proper kinds, sizes, and numbers of fishes will start a pond in the right direction. Most Ohio ponds are ideal for largemouth bass, bluegills, and channel catfish, and all three provide excellent fishing and fine eating. An initial stocking of a combination of these fishes is usually recommended for new or renovated ponds. Properly managed largemouth bass and bluegills will produce self-sustaining populations, whereas channel catfish usually require periodic restocking. Channel catfish are often considered bonus fish because they don't interfere with the other pond fish, but provide extra fishing and harvest opportunities. Redear sunfish can also be stocked as a bonus fish in combination with bluegills and are popular because they rarely become overabundant and often grow to large sizes. However, they can be more difficult to catch than bluegills. Another fish which is occasionally stocked in farm ponds is the triploid grass carp, or white amur. Unlike largemouth bass, bluegills, redear sunfish, and catfish, grass carp are not stocked for sport or to eat, but to control or eliminate nuisance aquatic vegetation.

## NUMBER OF FISH TO STOCK PER ACRE

STOCKING COMBINATION	BASS	BLUEGILL	REDEAR	CATFISH
Bass - Bluegill	100	500	0	0
Bass - Bluegill - Catfish	100	500	0	100
Bass - Redear	100	0	500	0
Bass - Bluegill - Redear	100	350	150	0
Bass - Bluegill - Redear - Catfish	100	350	150	100

## 2019 PERRY SWCD FISH SALE

Perry SWCD will hold their 31st Annual Fish Sale on Thursday, May 2nd. To order fish, simply complete this order form and return it with your payment by Tuesday April 30th. Please make checks payable to **Perry SWCD**.

Your fish will be available for pick-up on **Thursday, May 2nd from 10 a.m. to 11a.m sharp!** If you cannot pick up your fish during that time, they will be returned. We cannot hold fish for later pick-ups.

Remember to bring a container of appropriate size with some of your pond water. Do not use well water as it is typically cooler and low in oxygen content.
