Here you will find resources from various sources to help communicate information about the COVID-19 vaccine and related concerns. Resources available include materials to address the general population as well as materials to address specific groups.

Note: Many materials from outside sources are submitted to the Ohio Department of Health (ODH) for sharing on the Communications Resources Hub. They may contain information supplied by professionals from outside the department and are not necessarily reflective of the policies or opinions of ODH or its staff.

Please reach out to minorityhealth@odh.ohio.gov to submit resources or with any questions or concerns.

COVID - 19 | Key Indicators

Cases

Total Reported Cases	Last 24 Hour Reported Cases Change	21 Day Reported Case Average	21 Day Trend
962,404	**2,409**	**2,455**	3,683 ... 2,409

Deaths

Total Reported Deaths	Last 24 Hours Reported Deaths Change	21 Day Reported Death Average	21 Day Trend
17,125	**80**	**267**	2,559 / 62 ... 80

Hospitalizations

Total Reported Hospitalizations	Last 24 Reported Hours Hospitalizations Change	21 Day Reported Hospitalization Average	21 Day Trend
49,951	**163**	**135**	228 ... 163

ICU Admissions

Total Reported ICU Admissions	Last 24 Hours Reported ICU Admissions Change	21 Day Reported ICU Admission Average	21 Day Trend
7,104	**21**	**14**	21 ... 29 ... 21

All dates are based when an indicator is reported and will not match data in other COVID-19 dashboards provided by the Ohio Department of Health. All other dashboards are based on onset date, date of hospitalization, or date of death.

Note: Totals include Confirmed and CDC Expanded Case Definition (Probable)

The Bureau of Infectious Diseases and the Bureau of Vital Statistics continue to reconcile death data. This process is ongoing as the teams complete a deep review of the data. This review will result in some fluctuations in death numbers moving forward.

Ohio | **Department of Health**

All 88 Ohio Counties Ranked by Highest Occurrence
COVID-19 Cases

The 14-day period used for this table covers data from Feb. 10 to Feb. 23. The data were pulled on Feb. 24 and exclude incarcerated individuals.
Shaded counties meet the Centers for Disease Control and Prevention definition of "high incidence" of COVID-19.
