Executive Summary

This plan is the Public Transit-Human Services Transportation Plan for Perry County. The plan was initially developed in 2014, updated and approved by ODOT in 2017, 2018, 2019 and is being updated annually in 2020. This plan fulfills the requirements of the Federal Transit Administration (FTA) under the Fixing America's Surface Transportation (FAST) Act, signed into law as a reauthorization of surface transportation programs through Fiscal Year 2020. According to requirements of the FAST Act, locally developed coordinated public transit-human services transportation plans must be updated to reflect the changes established by the FAST Act legislation. The FAST Act applies new programs and rules for all Fiscal Year 2016 funds and authorizes transit programs for five (5) years.

Transportation is a critical component of the communities in Perry County. Transportation provides access to jobs, education, healthcare, human services and allows all community members, including older adults and people with disabilities, to live independently and engage in community life. It is the purpose of this plan for local stakeholders to work collaboratively to do the following activities:

1. Identify all community resources including:
 - Perry County Commissioners
 - Perry County Mobility Management
 - Perry County Transit
 - Perry County Transit Medicaid Billing
 - Perry County Job and Family Services
 - ODOT
 - FTA
 - Contract Sources
 - General Public
 - Perry County Courts
 - Perry County Schools
 - Perry County Agencies
 - Perry County Board of Developmental Disabilities
 - Perry County Senior Center
 - Perry Behavioral Health
 - Perry County Health Department
 - Perry County Veterans Service Commission
 - Hopewell Health Center
 - AllWell Behavioral Health Services
 - Fairview Assisted Living
 - Employers
 - Non-Profits
 - Creating Healthy Communities Project funded through the Ohio Department of Health
 - Buckeye Hills Regional Council
 - Mid-Ohio Regional Planning Commission

- Genesis Perry County ER
- Perry County Think Tank on Poverty

2. Identify and Prioritize community transportation needs

- Mobility Manager for Transportation Coordination
- Safety Campaign Countywide
- Marketing and Education for Transportation Options
- Low Cost for Transportation
- Additional Transportation Options

3. Establish a clear plan for achieving shared goals

Community collaboration is the most effective way to achieve Perry County’s shared goals. Transportation is needed and relied upon for medical appointments, employment, daycare, school, after school programs, community events and everyday essentials. The Mobility Manager is able to focus on cultivating partnerships with various agencies and determine how to effectively meet transportation needs. The Mobility Manager will work with other transit focused organizations in securing funding for the area to help expand reliable transportation to the citizens that need it most. Growing and developing new partnerships will help provide routes and services that reach our consumer base while also supporting businesses and a healthy community.

Fundamental to the Coordinated Transportation Plan process is the active and meaningful involvement of stakeholders. For projects selected for funding under the Section 5310 program, participation in planning activities must include participation and/or representation of the following, at minimum:

- Seniors
- Individuals with disabilities
- People with low incomes
- Public, private and non-profit transportation providers
- Human services providers
- Public Health services
- The general public.

In order to ensure participation from the above groups the following stakeholder involvement activities were performed:

1. Public meetings were held for the general public and partners. (postponed due to Covid-19 restrictions)

2. Planning committee meetings were held at Perry County Job and Family Services and local library.

This plan was developed and adopted by a planning committee. More information about the planning committee can be found in Appendix A.

I. Geographic Area

Perry County Ohio is located in the southeast area of the State.

Map 1: Basic map of the geographic area covered by the plan.

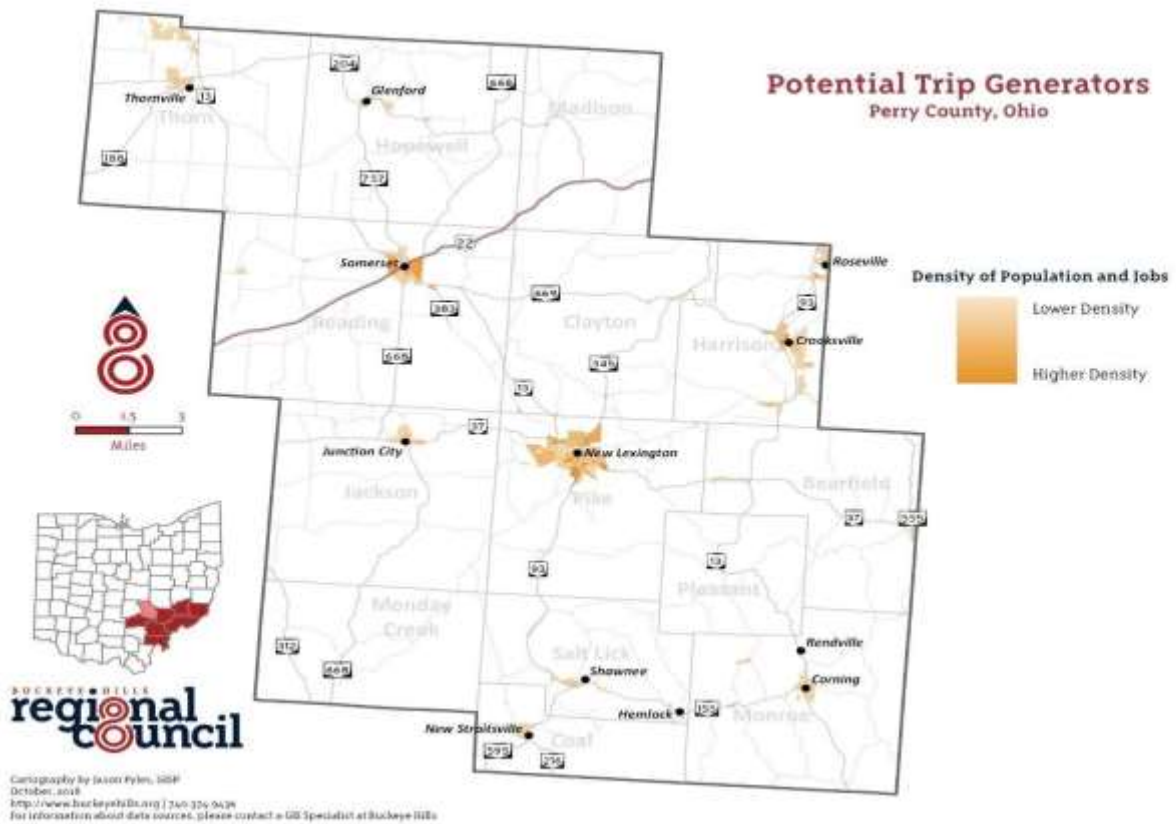

Adjacent counties are Licking County (North), Muskingum County (Northeast), Morgan County (Southeast), Athens County (South), Hocking County (Southwest) and Fairfield County (West). Founded on March 1, 1818 from parts of Fairfield, Washington and

Muskingum Counties, it was the 55th county to be formed in Ohio.

The area is known to be economically depressed with a high rate of poverty (19.4% 2020 Federal Poverty Report Ohio DSA) and an unemployment rate of 8.1% (ODJFS OWD September 2020). These factors contribute to low socioeconomic status among Perry County residents. Perry County is comprised of small communities separated by miles of state highway. According to the Ohio Department of Transportation (ODOT), the county consists of 413 square miles with 373 miles of ODOT maintained state highway. Due to its rural location and its low-income population, travel between communities can be difficult and costly for those without reliable transportation.

Map 2: Major trip generators in the geographic area.

II. Population Demographics

Chart 1: Total Population Current and Projected for Five Years

Chart 1 illustrates the change in population for Perry County from 2005 through projected numbers in 2025. Based on previous census information, Perry County's population is projected to increase throughout the next five years.

Source: Census Reporter/Profiles

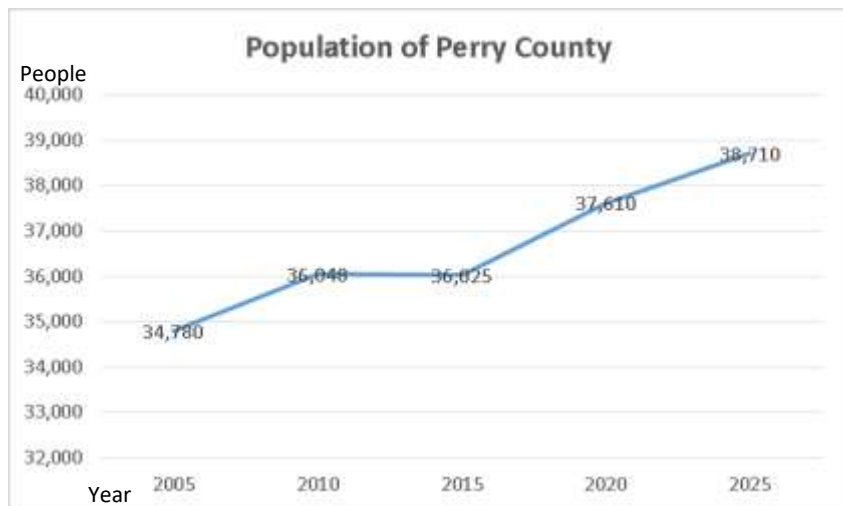

Chart 2: Total Population by Age Group

Chart 2 illustrates population by age category based of the 2015 Census.

Source: *2018 Census Reporter/Profiles*

Age Category	Population
Under 18 years of age	8,569
18 to 64 years of age	21,890
Over 65 years of age	5,716

Chart 3: Total Population by Race

Chart 3 illustrates Perry County population by race compared to the United States.

Race and Hispanic Origin	Perry County	United States
White alone, percent, July 1, 2019, (V2019)(a)	97.3%	76.3%
Black or African American alone, percent, July 1, 2019, (V2019)(a)	0.5%	13.4%
American Indian and Alaska Native alone, percent, July 1, 2019, (V2019)(a)	0.4%	1.3%
Asian alone, percent, July 1, 2019, (V2019)(a)	0.2%	5.9%
Native Hawaiian and Other Pacific Islander alone, percent, July 1, 2019, (V2019)(a)	0.1%	0.2%
Two or More Races, percent, July 1, 2019, (V2019)	1.5%	2.8%
Hispanic or Latino, percent, July 1, 2019, (V2019)(b)	0.9%	18.5%
White alone, not Hispanic or Latino, percent, July 1, 2019, (V2019)	96.5%	60.1%

III. Assessment of Available Services

Conducting an evaluation of service provider capabilities and analyzing the existing gaps and duplications of services for transportation resources in each community, provides transportation planners with the information needed to implement changes that will improve the network of transportation resources and services in Perry County and across county lines.

The lead agency identified stakeholders to participate in the assessment of available services. These stakeholders included those who were represented in the current or past planning committees, as well as others who the planning committee identified as being appropriate stakeholders.

Interviews were conducted with each of the identified stakeholders.

The purpose of the interview was to offer the stakeholders an opportunity to discuss the specific transportation services, gaps, needs, and priorities for their respective service areas or communities.

When applicable, information reported in the previous coordinated plan was used to supplement information gathered during this planning effort.

The table below provides a summary of the characteristics of the participating transportation providers and organizations that purchase transportation on behalf of consumers.

Table 1: Organizational Characteristics

Agency Name	Directly Operates Transportation (Yes/No)	Purchases Transportation from Another Agency (if Yes, Who?)	Legal Authority (Private Non-Profit, Private For-Profit, Public Non-Profit,)	Number of Annual One-Way Passenger Trips	Average Number Trip Denials per Year	Are Vehicles Only Available for Human Service Agency Clients (Y/N)*
Perry County Transit	Yes	No	Public, Non-profit	41,130	184	N
Sech-Kar	Yes	Yes, Perry County Transit	Private	-	-	N
Perry County Job and Family Services	Yes	Yes, Perry County Transit and Private Individuals	Public	11,086	-	Yes-Services available only to clients and employees
Perry Behavioral Health Choices, Inc.	Yes	No	Private, Non-Profit	-	-	Yes-Services available only to clients and employees

Mount Aloysius	Yes	No	Private, Non-Profit	-	-	Yes-Services for clients and employees
PerCo	Yes	No	Private, Non-Profit	-	-	Yes-Services for clients and employees
Perry County Senior Center	Yes	Yes	Public, Non-Profit	-	-	Y
Perry County Veterans Service Commission	Yes	No	Public, Non-Profit	1,318	0	Yes-Veterans and Spouse
Fairview Assisted Living	Yes	Yes	Private, Non-Profit	-	-	No

* Answering “Yes” indicates that your agency is closed door. Your agency is considered closed door if you ONLY provide transportation to your facility as a courtesy or if you ONLY serve a particular clientele that are enrolled in your agency programs (i.e. members of a sheltered workshop, or residents in a nursing home). Answering “No” indicates that your agency is open door. This means the service is open to the public or a segment of the general public defined by age, disability, or low income. For example, if an agency provides general transportation for anyone in the community who is over the age of 60, they are considered “open door”. For example, an individual who is 60 or over can request transportation to a doctor’s appointment or the grocery store regardless of their affiliation with your agency.

The participating organizations provide a wide range of transportation including FIXED ROUTE, ADA PARATRANSIT, DEMAND RESPONSE, ONDEMAND, AND HUMAN SERVICE AGENCY FIXED ROUTES. Five of the participating organizations provide services on weekdays. Three operate transportation on Saturdays and two on Sundays. Evening services after 6:00 p.m. are operated by three organization. The following table depicts the transportation service characteristics by agency.

Table 2: Transportation Service Characteristics

Agency Name	Mode of Service	Days & Hours of Operation	Provides Medicaid-Eligible Trips (Y/N)	Level of Passenger Assistance Provided	Training Courses Required for Drivers
Perry County Transit	Rural Transit	M, T,R,F 6am-6pm Wed. 6am-9pm Saturday 8am-12pm	Y	Curb to Curb	Drug & Alcohol Blood Borne Pathogens Wheel Chair Securement DRIVE (transporting older disabled passengers) Two-way radio communication CORSA NIMS Confidentiality CPR & First Aid Sensitivity and Diversity Training Civil Rights

Assessment of Community Support for Transit

1. Perry County Transit

- Contract sources (PCJFS, PCBDD, MVESC, Fairview Assisted Living, HAPCAP, JFS, SechKar, Children Services, Family & Children First, Local School Districts)
- General Public
- Perry County Court
- Employees
- County Support (Commissioners)

2. Perry County Job and Family Services

- General Public for Funded Programs
- Employees

3. Perry County Health Department

- Creating Healthy Communities Project funded through the Ohio Department of Health (ODH).

4. Perry County Active Transportation Team

- Works to increase education and awareness for active transportation that includes “Your Move Ohio” and “Walk.Bike.Ohio” an ODOT/ODH supported initiative.
- Completion of the Perry County Active Transportation Plan adopted 12-19-2019.
- Continue partnering to increase opportunities for active transportation through the procurement of funding and the development of community initiative.

5. Perry Behavioral Health Choices, Inc.

- Encourages clients to use Transit
- Clients
- Employees

6. Mount Aloysius

- Increase access to community resources/integration

Safety

1. Perry County Transit

- Yearly County Safety Training for employees
- Safety Sensitive Position Training
- Distracted/ Defensive Driving Training
- Weather Safety Training
- Blood Borne Pathogens Training
- Drug & Alcohol
- Wheel Chair Securement
- MUJ and UI
- Covid-19 CDC Requirement
- Human Trafficking
- ADA Requirements
- CPR – First Aid
- Daily Vehicle Inspection

2. Perry County Job and Family Services

- DRIVE (transporting older disabled passengers)
- CORSA
- NIMS
- Confidentiality
- CPR - First Aid
- RTAP
- Pre-Trip Inspection
- Annual Vehicle Inspection
- Yearly County Safety Training for employees
- Safety Sensitive Position Training
- Blood Borne Pathogens Training

3. Perry County Active Transportation Team

- Countywide Safety Campaign revolving around the “Your Move Ohio” promotional material.

4. Mount Aloysius

- Driver Safety Training
- Wheelchair Safety Training
- CPR/First Aid
- Blood Borne Pathogens
- Confidentiality

5. Sech-Kar

- Yearly inspections on all vehicles
- Vehicle safety inspection pre-trip
- Certified in CPR, First Aid, and Blood Borne Pathogens
- Trained on Hoyer lift and wheelchair lift and how to tie down wheelchairs
- Trained on each consumer they transport and review ISP

6. PerCo

- Drug & Alcohol
- Insurable
- Blood Borne Pathogens
- BMV Abstract
- Wheel Chair Securement
- Background Check
- CPR & First Aid
- Physical and Drug Screen
- Valid Driver's License
- MUI, UI, and HIPPA Training
- Certifications for Direct Support
- Annual Vehicle Inspections
- Daily Pre-Trip/Post Trip Inspection

7. Perry County Senior Center

- Drug & Alcohol
- Blood Borne Pathogens
- CORSA
- NIMS
- Confidentiality
- CPR & First Aid

8. Perry County Veterans Services

- Drug & Alcohol
- Blood Borne Pathogens
- Fire Extinguisher
- First Aid Kits
- Safety Equipment

Vehicles

Survey/Interview participants listed a combined total of 81 vehicles. Approximately 49.38% of the vehicles are wheelchair accessible, resulting in an increase of ADA accessible vehicles. A vehicle utilization table is provided at the end of this chapter.

Some of the transportation providers provide at least one wheelchair accessible vehicles, while the local rural transportation organization has almost an entire fleet of wheelchair accessible vehicles.

Perry County Transit (PCT) utilizes their wheelchair accessible vehicles daily to provide transportation to the general public including the elderly and disabled population, throughout the community. PCT is contracted with the local Board of Developmental Disabilities to provide transportation to and from daily activities including employment.

Mount Aloysius also uses their vehicles to provide transportation for their disabled population on a daily basis.

As vehicles age, they require additional maintenance, may break down more often, and become costlier to operate. Vehicle replacement, based on age and condition, is vital to the overall cost effectiveness of the transportation services provided.

Agency	Total Vehicles	Wheelchair Accessible Vehicles	Percent of Operation Fleet Wheelchair Accessible
Perry County Transit	32	32	100%
Perry County Job and Family Services	9	0	0%
Perry Behavioral Health Choices, Inc.	7	0	0%
Mount Aloysius	14	4	28%
HAPCAP	1	0	0%
PerCo	8	4	50%
Senior Center	5	0	0%
Fairview Assisted Living	2	0	0%
Perry County Veterans	3	0	0%
Total	81	40	49.38%

Summary of Existing Resources

Throughout Perry County there are multiple resources for transportation such as county entities, nonprofits and local businesses. Perry County's primary source of public and contracted transportation is Perry County Transit (PCT). With a large number of vehicles on the road, PCT's fleet consists of 32 vehicles with 100% of the vehicles being wheelchair accessible. Perry County is an on demand rural transit system. Over the last few years PCT has had equipment upgrades such as:

- MARCS Radios - PCT now has coverage throughout the entire State of Ohio
- Tablets with GPS - PCT now has real time data on all vehicles
- Ecolane-On Demand Software
- Bike Rack Accessible Vehicles

Other agencies throughout the county contract with PCT to meet their transportation needs, such as Perry County Job and Family Services, Perry County Board of Developmental Disabilities and local schools. Perry County Transit and PerCo is now certified to process Medicaid billing.

The following agencies have vehicles that are used for employees and clients, but not readily accessible to the public: Perry County Department of Job and Family Services, Perry County Board of Developmental Disabilities, Perry County Senior Center, Perry County Veteran Service Commission, Crooksville Exempted Village School District, New Lexington City Schools, Northern Local School District, Southern Local School District, Perry County Juvenile Court, Perry County Behavioral Health Choices Inc., Perry County Emergency Management Agency, Perry County Help Me Grow, Perry County Head Start, Perry County Churches and Faith Base Organizations, Perry County Children Services, Fairview Assisted Living and the Perry County Health Department.

Perry County's Mobility Manager is currently tasked with coordinating services among the agencies listed above and educating the public on transportation options throughout Perry County. Through the coordination of services, Perry County's resource will be utilized to their maximum capacity and expanded upon based on the community's needs. Elderly and Disabled individuals will be informed of options that will allow them to lead an independent lifestyle.

IV. Assessment of Transportation Needs and Gaps

In an effort to better understand Perry County's needs, the planning committee examined research and data, as well as solicited input from the community in an effort to identify the needs and gaps in transportation services. The demographic and socio-economic conditions of the study area are discussed in the Demographics Chapter of this plan. The following overview is an evaluation of the gaps in service based upon geographic data as well as from the perspective of the targeted populations, transportation providers, and the general public.

Perry County Job and Family Services and a variety of stakeholders in the area attempt to solicit input and request participation from any organization that could potentially be impacted by the coordinated transportation planning process. More information on how the lead agency engaged stakeholder and the general public is available upon request.

The following methods were used to assess transportation needs and gaps

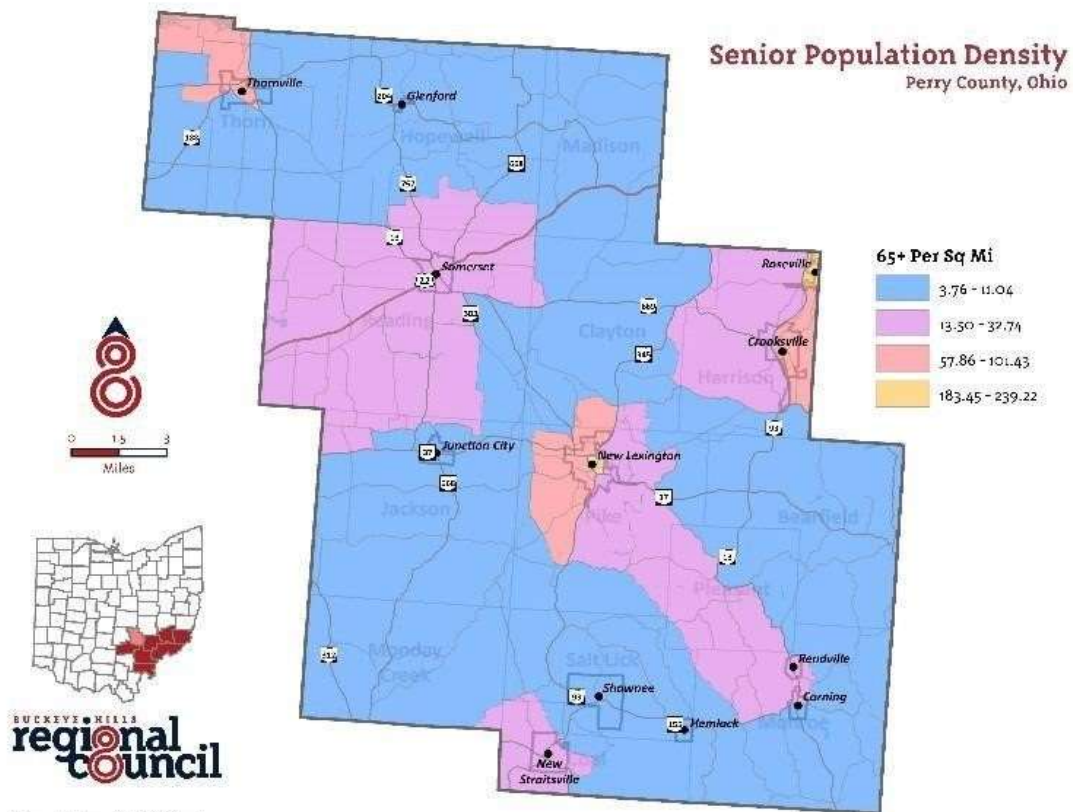

- Assessment of data, demographics, and public survey.
- Public Meetings (Restricted due to Covid-19)

Local Demographic and Socio-Economic Data

Data for each target population group were aggregated by Census Block Group for transportation analysis. The demographic and socio-economic data is valuable because a comparison of where the highest and lowest densities individuals who are most likely to need transportation live. This information can then be compared to the locations of major trip generators, and available transportation services.

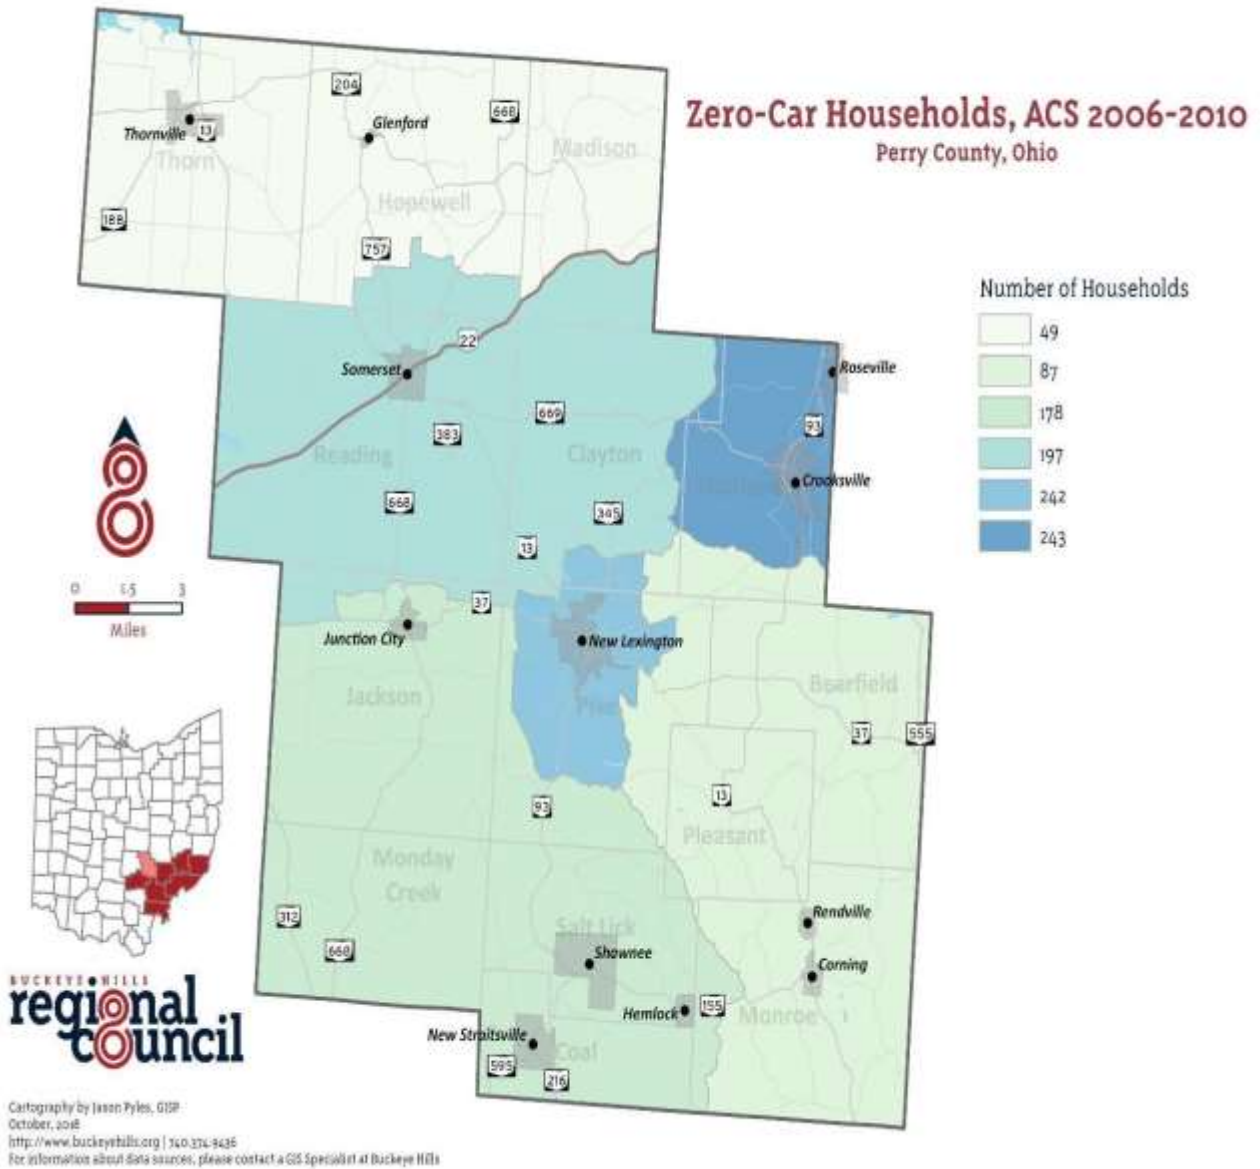

The following exhibit illustrates the areas where the number of older adults (age 65 and older) are at or above the Perry County average.

Exhibit 1: Map of Population Density of Individuals Age 65 and Older

The exhibit below indicates the areas where the number of zero vehicle households is above the regional average. The absence of a vehicle in the household is often an indication of the need for transportation services.

Exhibit 2: Map of Density of Zero Vehicle Households

The absence of a vehicle in the household is often an indication of the need for transportation services. The following chart displays the households in Perry County, OH distributed between a series of car ownership buckets compared to the national averages for each bucket. The largest share of households in Perry County, OH have 2 cars, followed by 3 cars.

Exhibit 3: Chart Car Ownership Households

Car Ownership in Perry County

Please note that the buckets used in this visualization were not evenly distributed by ACS when publishing the data.

Gray = United States Orange = Perry County

DATAUSA:

Analysis of Demographic Data

Demographics for Perry County note high rates of individuals with incomes below the federal poverty level when compared with state data (19.4/13.9). This is significant as higher rates of poverty are directly linked to poor health outcomes, low educational attainment and alcohol and substance abuse. Residents in need of services frequently have to travel long distances to receive services due to Perry County’s geographical location. Those living in poverty often do not have access to safe and reliable transportation. Thirteen percent (4,783 residents) of the population report living with a disability. The Bureau of Transportation notes that 12% of individuals living with a disability do not have access to ADA accessible transportation.

General Public and Stakeholder Meetings/Focus Groups

Perry County Job and Family Services hosted and facilitated 7 local meetings and focus groups to discuss the unmet transportation needs and gaps in mobility and transportation. Over 60 people participated in the meetings. Of those, 7 self-identified as older adults and 1 self-identified as being a person with a disability. More information about what meetings were held and attendance at those meetings is available upon request.

During the meeting, Perry County Job and Family Services presented highlights of historical coordinated transportation in Perry County. Also, discussed where the activities since the last Coordinated Public Transit Human Services Transportation Plan that have helped to address some of the unmet transportation needs and gaps in services for the area.

Following the initial presentation, the stakeholders were asked to do the following:

1. Review gaps in transportation services and needs from the previous plan
2. Update and identify any gaps that were no longer valid
3. Address any new needs or gaps

The focus of the discussion was transportation for older adults, individuals with disabilities, and people with low incomes. However, several topics discussed also impact mobility options for the general public.

Participants discussed more than three mobility issues to achieve, preserve, avoid, or eliminate through coordination during the meetings. Coordinated transportation stakeholders will consider these unmet needs when developing transportation goals and strategies and grant applications. The exhibit at the end of this section provides a summary of the unmet mobility needs discussed during the meeting as well as the needs identified by the survey results.

Surveys

In 2019, Perry County, Ohio conducted an Individual Transportation Survey. The following survey summary includes the information gained from the individual that complete the surveys. There were 217 surveys collected from the general public. Of those surveyed 17.67% of the individuals considered themselves to be disabled and 14.88% were older adults.

Exhibit 1: Age Demographics

The chart below demonstrates age categories of individuals that completed the transportation survey. According to the surveys, the largest age group was between ages 45-59, constituting nearly 30.8% of the survey's population. The second largest group was between ages 31 and 44, consisting of 28.11% of the survey's population. Approximately 18.89% of the survey's population was age 60 and older.

Q2 How old are you?

Exhibit 2: Target Demographics

The chart below demonstrates the target population in regard to the plan. Only 47.91% of those surveyed did not identify as one of the target populations.

Q6 I consider myself (Check all that apply to you)

Answered: 215

The following chart shows examples as to what improvements Perry County residents would like to see in their transportation options. The majority of those surveyed feel that there are not enough transportation options when the primary public transportation system is not in operation.

Coordinated Plan Individual Survey

What improvements could be made to your local transportation options to make using them more appealing to you? (Check all that apply to you and list your own examples in Other.)

Answer Choices	Responses	
If I could ride to other parts of the state (such as Columbus or other cities and towns)	36.76%	68
Lower the cost to ride	38.38%	71
Start earlier in the morning	23.24%	43
End later at night	47.03%	87
Operate on Saturdays longer	45.95%	85
Operate on Sundays	38.38%	71
No shared rides with others	14.05%	26
If vehicles operate on a fixed route and schedule with bus stops	15.14%	28
Smaller vehicles	10.27%	19
Larger vehicles	3.24%	6

Challenges to Coordinated Transportation

In addition to identifying needs, the planning committee gathered information from stakeholders and used their own professional experience to identify challenges to providing coordinated transportation services. These challenges include the following:

- Communication and participation gaps among agencies and businesses
- Lack of evening and weekend transportation options
- Transportation for employment for 2nd and 3rd shifts is not available
- Marketing and education regarding transportation options.
- Access to safe active transportation routes.
- Decrease cost to the public

Summary of Unmet Mobility Needs

The following table describes the identified unmet transportation needs that were identified and the method used to identify and prioritize each need. Needs are listed in order of their rank in highest to lowest priority.

Exhibit 1: Prioritized Unmet Mobility Needs

Rank	Unmet Need Description	Method Used to Identify and Rank Need
1	Sustaining Mobility Manager	Surveys. Public and Planning Committee Input
2	Countywide Safety Campaign	Surveys. Public and Planning Committee Input
3	Marketing and Education for Transportation Options	Surveys. Public and Planning Committee Input
4	Low Cost Transportation	Surveys. Public and Planning Committee Input
5	Additional Transportation Options	Surveys. Public and Planning Committee Input

V. Goals and Strategies

Developing Strategies to Address Gaps and Needs

Strategies for improving transportation for Perry County should address the service gaps and user needs identified in this plan, if they are to be effective. As described, the gaps and unmet needs were based on information obtained from geographic analysis, the attendees participating in the meetings, and responses to the public survey.

Based on information gathered throughout the planning process, Perry County Job and Family Services along with the Planning Committee developed the following strategies to address the gaps and unmet transportation needs. Priority levels are assigned by considering the primary funding sources that could be available to support plan implementation compared to the importance of meeting this unmet need expressed by the public and stakeholders. Not all strategies are activities specifically eligible for funding under the existing programs, nor is it guaranteed that sufficient funding will be available to achieve every strategy identified. In addition, the local stakeholders will need to provide support and commit to pursuing the strategies if they are to be accomplished. Nonetheless, these strategies have been tailored to 5 of the identified primary gaps and needs.

Below is an outline describing the prioritized strategies to address each of the identified unmet transportation needs and gaps in service.

Goal #1:

Goal: Sustaining Mobility Management Project for coordination of services throughout Perry County.

Need(s) being addressed:

- 1.) Perry County has a large number of out of county trips which takes vehicles out of use for hours resulting in a limited number of trips that can be performed.
- 2.) Continued education regarding transportation options in Perry County is needed.
- 3.) Elimination of duplicated trips will save agencies money and could lead to better hours of operation for the public.

Strategy 1.1:

Define strategy being implemented to achieve goal;

The Mobility Management Project includes the Mobility Manager seeking to identify transportation needs and work to achieve the outcomes of the Coordinated Plan. The Mobility Manager is responsible for coordinating with all of Perry Counties' agencies and businesses in order to help reduce duplication of trips, out of county trips and educate the public on transportation options throughout Perry County. The Mobility Management Project does include media outreach, trainings and technology.

Timeline for Implementation: January 2021 to December 2022 (Depending on available funding to be continued in 2022).

Action Steps:

List the action steps associated with the strategy for achieving the goal.

- 1.) Continue to employ a Mobility Manager preferably with experience in the field.
- 2.) The Mobility Manager will continue to work with agencies in Perry County with hosting regular meetings, offer trainings and distribute outreach materials.
- 3.) Continue the work of updating the coordinated plan to help identify any new unmet needs and develop goals to overcome those needs.
- 4.) Educate the population of Perry County about their transportation options.
- 5.) Attend trainings, develop outreach materials and continue to develop a communication process to achieve coordinated transportation.

Parties Responsible for Leading Implementation: Perry County Job & Family Services

Parties Responsible for Supporting Implementation: All Agencies that provide or create transportation in Perry County.

Resources Needed: ODOT, FTA and County Partners

Potential Cost Range: \$50,000-\$75,000 dependent on funding available for a Mobility Management Project including salary for Mobility Manager

Potential Funding Sources: 5310 Grant

Performance Measures/Targets:

- 1.) Organize multiple schedules and riders to eliminated duplication and reduce the number of out of county trips.
- 2.) Work with other transit focused organizations to secure funding to expand transportation.
- 3.) Improve how to reach customers utilizing advanced technology to minimize duplications.
- 4.) Track what outreach option works best to reach the citizens of Perry County.

Goal #2:

Goal: Continual progression with complete streets and sidewalks in Perry County has increased by three villages (New Lexington, Roseville and Somerset) to improve the safety for active commuters, specifically focusing on the Carroll Street Corridor project in the Village of New Lexington.

Need(s) being addressed:

- 1.) Raise awareness of the new laws involving slow moving vehicles including bicycles, wheelchairs, and pedestrian traffic on the highways.
- 2.) Decrease auto/pedestrian/bicycle crashes throughout Perry County through education and awareness campaign.
- 3.) Increase the number of communities utilizing the “Your Move Ohio and Walk.Bike.Ohio” Campaign.
- 4.) Increase the number of communities with complete streets and sidewalks projects to improve active commuter’s safety.

Strategy 2.1:

Define strategy being implemented to achieve goal.

Strategy for increasing the number of villages addressing complete streets and sidewalk development includes education to village councils and townships on complete streets and their ability to improve active transportation/commuter safety. Education will include resources on the availability of funding through state and local sources. Utilization of “Your Move Ohio and Walk.Bike.Ohio” materials involves the education and presentation of the “Your Move Ohio and Walk.Bike.Ohio” initiative to three additional entities (currently being distributed in three Perry County communities) to garner support and increase the distribution of the campaign materials while providing county wide advertising of the initiative. Additional strategy includes the development of bicycle safety classes to decrease crashes between motorists, pedestrians and bicyclists as this is unaddressed within the county at this time.

Timeline for Implementation: January 2021 to December 2022

Action Steps:

- 1.) Continue to meet with additional village councils to introduce complete street concept and to garner support of the “Your Move Ohio and Walk.Bike.Ohio” initiative.
- 2.) Meet with Perry County Sheriff’s Office, local Police Departments, Perry County Safety Team and Emergency Management Agency, school officials, to introduce ideas of an active transportation safety education campaign.
- 3.) Train police & sheriff officers in bicycle safety to share with families and individuals in Perry County.

Parties Responsible for Leading Implementation: Perry County Active Transportation Team

Parties Responsible for Supporting Implementation: Perry County Active Transportation Team, Perry County Health Department, Perry County Mobility Manager

Resources Needed: Community support, Your Move materials (ODH), Walk.Bike.Ohio (ODOT), location for campaign material distribution, advertising dollars, training for local law enforcement in bicycle safety

Potential Cost Range: \$5,000-\$5,500

Potential Funding Sources: AEP Electric, United Way, ODOT

Performance Measures/Targets:

- 1.) Measured by the number of villages/communities applying for complete street funding
- 2.) Measured by the number of distribution sites for “Your Move Ohio and Walk.Bike.Ohio” campaign materials
- 3.) Measured by the number of county wide advertising campaigns completed.
- 4.) Measured by the number of law enforcement trained to provide bicycle safety classes
- 5.) Measured by the number of individuals receiving bicycle safety classes.

Goal #3:

Goal: Provide a wide variety of transportation options that promote community access for people who are elderly and people with disabilities.

Need(s) being addressed:

- 1.) Promote access which will allow for full integration into the community.
- 2.) With access to the community a person is able to tap into local opportunities and build new relationships.
- 3.) Access to the community through walking paths and/or sidewalks and the expanded availability of various modes of transportation (cars, vans, bicycles, etc.)

Strategy 3.1:

Define strategy being implemented to achieve goal

We will work with local authorities to assess current opportunities for access to the community as well as existing or potential barriers to access. We will also identify the number of people that will be impacted by the achievement of this goal. We will then begin a strategic planning process to determine the steps needed to attain the goal. The final step will include the implementation of the plan.

Timeline for Implementation: January 2021 to December 2022

Action Steps:

- 1.) Identify stakeholders who will participate in the assessment and planning process.
- 2.) Assess current situation
- 3.) Work with stakeholders to begin planning process and identify and prioritize areas of need.
- 4.) Develop and implementation plan and identify the various funders who will be involved.
- 5.) Implement plan.

Parties Responsible for Leading Implementation: Mount Aloysius Corp.

Parties Responsible for Supporting Implementation: Relevant Stakeholders

Resources Needed: ODOT, Local Officials, Private sector

Potential Cost Range: To be determined

Potential Funding Sources: Grants, Local development money, private contributions

Performance Measures Targets:

- 1.) Measuring current access to the community rates to new rates after completion of the project.
- 2.) Setting and meeting funding goals.
- 3.) Completion of projects.

Goal #4:

Goal: To provide safe, effective, and dependable transportation for individuals living in Perry County who are struggling with a substance use disorder.

Need(s) being addressed: The transportation needs are for services offered by Perry Behavioral Health Choices, as well as medical, dental, and employment needs.

Strategy 4.1:

Define strategy being implemented to achieve goal

To coordinate or provide transportation for clients as needed to ensure access to treatment for substance use disorders, as well as medical, dental, and employment needs.

Timeline for Implementation: January 2021 to December 2022

Action Steps:

- 1.) To improve access to transportation for individuals in the recovery community by hiring a full-time transportation coordinator.
- 2.) Coordinate transportation to substance use disorder treatment services through transportation systems in place or use of agency vehicles.
- 3.) Explore and implement opportunities for Recovery Community Individuals such as vehicle financing.

Parties Responsible for Leading Implementation: Perry Behavioral Health Choices, Inc.

Parties Responsible for Supporting Implementation: Perry Behavioral Health Choices, Inc.

Resources Needed: ODOT and County Partners

Potential Cost Range: \$40,000 in salary and benefits per year (4 year grant)

Potential Funding Sources: Transportation Grant

Performance Measures Targets:

- 1.) Measured by a decrease in cancellation of substance use disorder treatment appointments.
- 2.) Measured by an increase in number of individuals who are receiving substance use disorder treatment services.
- 3.) Measured by potential decrease in overdoses in the community.

Goal #5:

Goal: Work with the Ohio Department of Transportation to widen State Routes 13 and 93 within Perry County to include bicycle lanes, which is possible during the repaving of the state routes in or after 2022.

Needs being addressed:

- 1.) Increase availability of active transportation for Perry County commuters challenged by a disability.
- 2.) Reduce health disparities within Perry County's lower socioeconomic population by providing safe bicycling routes for access to employment and health care.
- 3.) Improve overall health outcomes for Perry County residents by providing safe routes for biking.

Strategy 5.1:

Work with the Ohio Department of Transportation prior to resurfacing projects to discuss the feasibility of/availability of funding to widen State Routes 13 and 93 to include bicycle lanes.

Timeline for Implementation: January 2021 to December 2022

Action Steps:

- 1.) Schedule meeting with Perry County Active Transportation Team and ODOT officials.
- 2.) Determine resurfacing schedules.
- 3.) Discuss feasibility of/availability of funding to complete the widening of State Routes 13 and 93 within Perry County.

Parties Responsible for Leading Implementation: Perry County Active Transportation Team, Perry County Health Department, Perry County Mobility Manager, Perry County Engineer

Parties Responsible for Supporting Implementation: Perry County Transportation Team Partners

Resources Needed: ODOT and partner participation

Potential Cost Range: To Be Determined based on the availability of funding.

Performance Measures/Targets:

- 1.) Measured by the number of meetings held between responsible parties.
- 2.) Measured by the completion of feasibility study of the project.
- 3.) Measured by the number of miles of State Highway widened for active transportation.
- 4.) Measured by the dates for completion of project.

VI. Plan Adoption

The Mobility Manager will use this plan to enhance relationships with public, private, and non-profits to meet the needs of all Perry County residents including those that are low-income, elderly or disabled. Public meetings will continue to be held in locations that are easily accessible to all residents and surveys will be collected regularly for data tracking. The Mobility Manager through this plan will continue to work on the following items:

- 1.) Expand the existing Planning Committee with addition of representatives from additional agencies and entities that either provide transportation or depend on it for their clients. Additionally, the committee can include local government representatives, as well as riders. This group should meet bi-monthly to discuss system wide progress, coordination and its effectiveness in reaching those in need, and any recommendations for change.
- 2.) Promote the use of new technology to increase efficiency in operations. Development of an interactive web site where users can schedule, make payments, check opportunities for travel sharing, and gather information about the transportation in Perry County. Integration of a

notification system with the current scheduling to notify users in advance for pick up times and return times. This can be accomplished by email, text or voice call notification. The use of GPS tracking to provide effective supervision and guidance of drivers and vehicles. Use of electronic payments methods such as pre-paid debit cards, electronic payments to a web site or tokens.

- 3.) Development of new opportunities for special needs population. Interaction with other transit authorities in neighboring counties with the goal to expand mobility to population centers outside of Perry County.
- 4.) Development of coordinated services or a shared services model to reduce duplicated services with the goal to increase services while reducing the cost for the both the user and other providers.
- 5.) Increase awareness and interaction with residents and groups throughout Perry County.

Appendix A: List of Planning Committee Participants

The planning committee consists of representation from local agencies as well as participation of individuals with disabilities, older adults, and members of the general public. More information about the planning committee is available upon request by contacting

Agency Representation

Name	First Last Name	Agency
Angela	McCord	SKLD Nursing Center
David	Couch	Perry County Board of Developmental Disabilities
Morgan	Deavers	Perry County Board of Developmental Disabilities
Mason	Dickerson	Perry County Transit
Justin	Gall	Mount Aloysius
Tammy	Gonia	Perry County Job and Family Services
Renea	Hiles	Perry Behavioral Health
Tiffani	Blake	Perry Behavioral Health
Jenny	LaRue	Perry County Health Department
Ruth	Liff-Gray	Retired Senior Volunteer Program
John	McGaughey	New Lexington School Board

E-mail Address: cheryl.boleyn@jfs.ohio.gov

Annual Review November 3, 2020

Public planned meetings have been postponed/cancelled since March 2020 due to restrictions in place for Covid-19 pandemic. Virtual meetings and email have been sources of contact. In 2019, three public meetings were held in February, June, and October to review the plan and discuss transportation throughout the county. The Mobility Manager continues work in the county to address the goals and strategies of the coordinated plan. Several meetings and trainings have been facilitated and attended by the Mobility Manager in an effort to improve community wide transportation.

Planning committee members have been at work on several projects county wide in order to improve mobility for elderly, disabled, handicap and low-income individuals. Over the last year, several community partners have begun to provide transportation or increased their fleet to deliver additional transportation options to the community.

The need for alternate transportation brings about safety concerns and issues which are now able to be addressed on all levels as the Mobility Manager brings public awareness to the community on a variety of forums. Safety projects have been brought to the forefront of meetings to address these concerns.

Working together as a community has allowed for continued efforts to reach the goals in the coordinated plan which improves mobility options overall. Combined efforts have produced positive outcomes benefiting citizens of Perry County.

Amendment

Appendix C: Definitions

There are several terms used throughout the plan that may be unique to transportation providers or human service agencies. The terms are defined here for reference.

Coordination – Collaborative efforts toward understanding and meeting the mobility needs in the most appropriate, cost effective, and responsive manner.

FAST Act – Congress established the funding for Federal Transit Administration programs through authorizing legislation that amends Chapter 53 of Title 49 of the U.S. Code. On December 4, 2015, President Obama signed the Fixing America’s Surface Transportation (FAST) Act, reauthorizing surface transportation programs through Fiscal Year 2020.

Gaps in Service – A break in the continuity of available transportation resources such as a break between hours of operation or a break between two or more geographic areas.

Lead Agency – The organization responsible for facilitating outreach; composing a plan that meets the requirements of current Federal and State legislation; maintaining documentation from the planning process and making it available upon request; and leading stakeholders through annual reviews, amendments, and updates of the plan. The Lead Agency also is responsible for submitting the adopted Coordinated Plan and all amendments or updates to participating stakeholders and ODOT.

Planning Committee – (indicate if the planning committee has another formal name) The Planning Committee is composed of key community stakeholders. The Planning Committee members agree to actively participate in the planning process and act as the plan advisory and adopting entity.

Ridership – The total number of passengers who boarded transportation vehicles are counted each time they board a vehicle.

Section 5310 Program – Enhanced Mobility of Seniors & Individuals with Disabilities (49 U.S.C. 5310) provides Federal formula funding for the purpose of assisting private nonprofit groups in meeting the transportation needs of older adults and people with disabilities when the transportation service provided is unavailable, insufficient, or inappropriate to meeting these needs. The program aims to improve mobility for seniors and individuals with disabilities by removing barriers to transportation service and expanding transportation mobility options.

Section 5311 Program – The Formula Grants for Rural Areas program provides capital, planning, and operating assistance to states to support public transportation in rural areas with populations of less than 50,000 where many residents often rely on public transit to reach their destinations. The program also provides funding for state and national training and technical assistance through the Rural Transportation Assistance Program. Subrecipients may include state or local government authorities, nonprofit organizations, and operators of public transportation or intercity bus service.

Section 5307 Program – The Urbanized Area Formula Grants program (49 U.S.C. 5307) makes federal resources available to urbanized areas and to governors for transit capital and operating assistance in urbanized areas and for transportation-related planning. An urbanized area is an incorporated area with a population of 50,000 or more.

Transportation – Transportation is broadly defined to include traditional transit, human service agency services, on-demand (taxi-like) services, bicycle and pedestrian programs and amenities.

Unmet Transportation Needs – Transportation that is wanted or desired but is not currently available.
