Rory is survived by his brother Jeff Thomas and sister Nancy Thomas.

On January 25th Dominic Alexander passed away at the age of 63. Dominic moved to Mount Aloysius in December of 1969, most recently celebrating his 51st anniversary of living here. Dominic was a former member of the Mount Aloysius Marching Band and Special Olympic Bowling Team in which he competed and won several medals over the years. Dominic worked at PerCo from 1985 until 2011. Dominic is survived by his mother Carmen, brother Frank (Donna), brother Michael (Lori), sister Becky, sister-in-law Joyce, nieces, nephews, great nieces, great nephews and his Mount Aloysius family. Dominic was laid to rest at Holy Cross Cemetery in Akron, Ohio.

Rufus Ayers passed away on February 8th. Rufus lived at Mount Aloysius from September 1987 to September 2018 when he was presented with the opportunity to move to a group home in the New Lexington area. Rufus was an avid artist and would often draw pictures to give to staff. He also helped out each year during Family Day by passing out the church service flyer. Rufus will be remembered fondly by his Mount Aloysius family.

Tax Reminder for Parents

Tax preparations are underway for the residents of Mount Aloysius and GLOW House. Some of the residents are employed at PerCo or Mount Aloysius and receive a paycheck and have state and federal taxes withheld. The residents also receive a W-2 form at the end of the year. In previous years, we have received calls from parents asking if the residents file tax returns. In order for a resident to be claimed as a dependent on a tax return, the resident must have lived with you for more than half of the year. A parent must have also provided for more than half the support for the year. For additional information, please refer to the IRS website.

Mount Aloysius Board of Director's & CEO Update Submitted by Justin Gall, CEO

Spring is just around the corner and we have much to celebrate at Mount Aloysius. I want to begin by thanking each of you for your continued dedication and support as we navigate how to return to normalcy on the hill.

In January and February, we had the opportunity to offer vaccinations to our residents and staff. This is a huge step in moving not only Mount Aloysius, but Perry County, toward herd immunity and taking one step closer to normalcy. Although vaccination is a step in the right direction, we still have a long way to go and must continue our cautious approach to all gatherings, visitation, and community activities to ensure we continue to move in the right direction.

Even though vaccinations have been administered, Mount Aloysius must continue to follow guidance as provided by the Ohio Department of Health and the Center for Disease Control. Even with restrictions in place, we strive to ensure quality care and place the utmost importance on keeping everyone active. We have resumed with our onsite day programming activities including opening the greenhouse and pool, returning to off-site day programming, and participating in limited community outings. All activities fall within the prescribed guidelines, and we always take the risk of the individual into account.

We are also only in the first quarter of the year, however we are working hard on the continuation of our strategic plan. As you are aware, our plan focuses on four main topics - creating the community as our customer, enhancing service provisions, diversifying funding streams and workforce development. As we began 2021, we were well on our way in outlining our future and are excited to see what the future holds for Mount Aloysius. A few items we have accomplished so far include:

- Becoming a certified respite and short-term provider
- Restructuring of our Nursing Department
- Partnering with our local school in providing training in our service field to upcoming high school graduates
- Exploration of options to enhance and grow our service delivery outside Mount Aloysius

I would like to end by thanking all of you again for your continued support, understanding, and trust. As always, please do not hesitate to reach out to myself, Shannon or Kim with any questions, suggestions, or comments. We welcome your input.

FAMILIES WIN FIGHT AGAINST STATE TO PROTECT DISABLED LOVED ONES

In a detailed 20 page written decision, federal **Judge Edmund A. Sargus, Jr.** has denied the state of Ohio’s attempt to dismiss a lawsuit brought by families who claim the state has failed to provide their disabled loved ones and others Medicaid benefits. The claims were filed by a dozen families throughout the state who claim the state – meaning the Department of Developmental Disabilities (DODD), the County Boards, and the Governor – improperly deny or thwart the Intermediate Care Facility (ICF) entitlement that thousands of developmentally disabled Ohioans rely upon. The ICF benefit provides comprehensive care to intellectually disabled Ohioans with a wide range of needs, including housing, nursing, therapy, food, and habilitation. Because of Judge Sargus’s ruling, the families’ case moves on, and the state must now defend it and answer for it.

In his written decision, **Judge Sargus** held: “The Court simply finds that the Medicaid Act requires Ohio to provide information about all of the services available, allow choice between waiver services and ICFs, and provide ICF services if that is the choice made by the individual or his or her guardian.”

The lawsuit was actually commenced in 2016 by **Disability Rights Ohio (DRO)** – *not* the families – when DRO sued the state and Governor Kasich. Because DRO’s lawsuit affected the ICF families, the families intervened, and in late 2018, the families filed their own claims against the state and county boards to protect the ICF choice.

The lead plaintiff for the families is **Caroline Lahrman**, a Columbus mother of severely disabled twins – Henry (21) and Elizabeth (21) – who live at the Heinzerling Community, an ICF in Columbus. Said Ms. Lahrman: “Families like ours with disabled children simply need to know what all our options are, including the ICF option. There are families on waiting lists, including those with elderly parents, whose child could move into an ICF today, and it would meet their needs, but they are unaware of the choice.” Lahrman explains: “Ohio’s DD System was built by families from the ground up over decades, but in recent years special interests have sought to marginalize those who need intensive care and reduce care options like the ICF. The state even incentivizes ICF providers to close their doors.” Lahrman adds, “Families are grateful for the Court’s ruling that recognizes the diverse needs of disabled individuals. We filed our claims reluctantly and take no joy in having to bring this case, but on behalf of thousands of other families in the dark, we will try to make sure all choices – including the ICF choice – are properly offered.”

The families are represented by **William Choslovsky** from **Ginsberg Jacobs LLC** in Chicago and **John Brody** from **Kegler Brown Hill & Ritter** in Columbus. Said Mr. Choslovsky: “This is an extremely important case, and we are privileged to represent the families. We appreciate and respect Judge Sargus’s detailed and thorough decision, and encourage all to read it. We prefer to resolve all issues with the state and county boards, as that is best for all.”
