

Summer Fun Cruisers,  
We want to welcome you to the Summer Fun Cruise for 2021. We are looking forward to another great weekly event. We have some new things we want to do this year..... Including the monthly publication of the *Summer Fun Cruise News*.

Please welcome Dave Potter this year to a spot in the DJ Tent as he adds extra color and trivia to our music selections. Dave will also be updating our newsletter for the following month. Please let him know if you have any information that needs to be posted.

Also new to our cruise, there will be a "Car Of The Week" award that will highlight the winner with a gift and a special parking spot.

Even though we have some new additions to our cruise this year we will still have our usual 50/50 raffle, driver registration prize, and door prize give-aways.

Take a moment and thank Jay and his staff for the use of PerCo and facilities each Tuesday afternoon. It's going to be another fun summer event. Let others know what we do here and invite them to come and enjoy it as well. It would be good for the community if the Flea Market and the Vegetable Stand would continue so let's do what we can to support them.

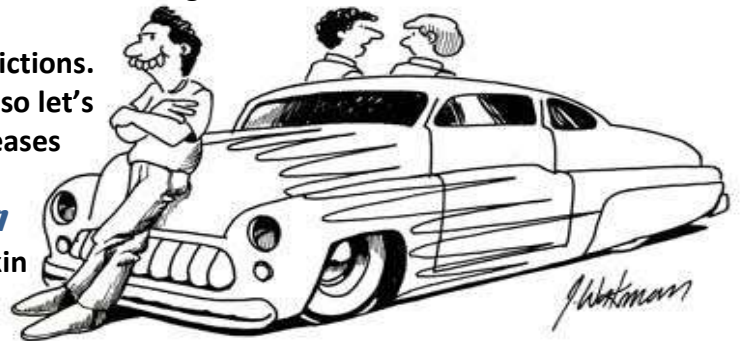

Unfortunately we will still be dealing with Covid restrictions. The Health Dept. mandates are still as they were last year, so let's do the best we can to conform to the rules and hope it all eases up as the summer progresses.

We are excited to be part of this 2021 *Summer Fun Cruise* and look forward to another (with your help) "Rockin & Rollin" good time!

*"Come on let's cruise....You got nothin to lose"*

*Steve-O & Belinda*

**WHAT IS IT?**  
**Can you guess what this car is?**  
**Yes, it is American made!**  
**(Answer on back page)**

"Have you ever noticed how much some guys look like their cars?"

## The first American sports car for under \$3,500 since 1957.

The last of the two-seater TBirds was priced at \$4,015.

It was 1957, the same year that Corvette listed at \$3,465.

In the 10 years that followed, Corvette was the only remaining American sports car, and it got progressively more costly.

Then, in 1968, along came the AMX. We introduced it with dual exhausts, fiberglass belted wide-profile tires, energy

absorbing steering column, heavy-duty springs and shocks, a short throw all-synchromesh 4-on-the-floor. A standard 290 CID engine, and optional 343 and high performance 390 CID's.

Now, though the AMX isn't quite a year old, we have some changes to report: A 140 m.p.h. speedometer and a big new tach are standard for 1969.

Leather upholstery is available as an

option.

So are new dealer installed rear axle ratios from 3.73:1 up to 5.00:1.

Famous names are making custom parts specifically for the AMX.

Hurst shifters, Doug's headers, "Isky" cams, Edelbrock and Offenhauser intake manifolds, Grant Industries' piston rings, Schiefer clutches and flywheels.

These are just a few. But the point is

you have a choice.

You can have a lot of fun in a basic AMX for only \$3,297!

Or you can spend more and modify an AMX. Who knows, you just might break some speed records with it.

Craig Breedlove did.

**[WHAT IS IT?...Continued**

It is a 1950: Crosley Station Wagon

Crosley, was a small firm from Cincinnati, owned by Powel Crosley Jr. By 1939, industrialist Crosley had already made a fortune as a radio and appliance manufacturer. He also had a passion for cars, and believed that America was ready for a small economy car. We older folks will remember the Reds baseball stadium (Crosley Field) that was named after Powel Crosley Jr.

Crosley Motors Inc was an innovative company who produced cars from 1939 to 1952. Way back in 1947, they introduced several firsts, such as the popular term "Sport Utility Vehicle".

Other firsts; The first production post war American Sports Car, "Hot Shot"; introduced in 1949, four years ahead of the Corvette. Crosley was first to offer four wheel disc brakes on an American built car. In 1947, they were ahead of the truck market by producing the first full-bed or fleet-side style pickup.

1948 Crosley  
"T Bucket"

1947 Crosley Pickup Truck

**Monthly upcoming events for Perry and surrounding counties.**
