1890 LAND-GRANT INSTITUTION

Adding Cover Crops to your Specialty Crop Plan

Crop planning is part of being an efficient and successful grower. When used properly, cover crops build soil health naturally by adding organic matter to the soil above and below ground. Join us to learn more about how to add cover crops to your specialty crop rotation.

You'll learn about:

- Diverse cover crop options
- Matching cover crop to soil needs
- When and how to plant cover crops
- Bed layout and design

Central State University, an 1890 Land-Grant Institution, is committed to the full inclusion of all people, and does not discriminate on the basis of age, ancestry, race, color, disability, gender identity or expression, genetic information, HIV/AIDS status marital or family status, military status, national origin, political beliefs, religion, sex, sexual orientation, or veteran status. If reasonable accommodations are needed, please contact the Department of Human Resources at 937-376-6540. Affirmative Action/Equal Opportunity Institution.
