**Recycling a glass bottle saves enough electricity to run a 100 watt light bulb for 4 hours!**

Recycling a 20 oz. plastic bottle saves enough electricity to run a computer about 20 minutes!

- **Recycling _saves tons of energy_! It also saves pollution, and natural resources. Plus, it diverts trash from landfills …instead; the recyclable 50% of our trash gets made into something useful again!**
- **Plus, recycling creates jobs!**
- **If we put the right materials into the recycle bins, that helps keep recycling of new products alive and well for future generations.**

What is in our trash?

True Trash 25%

Recycle! 50%

Compost! 25%

Compost your fruit & veggie scraps & yard waste!
